University of Missouri-Rolla

### Beating the Odds

- Opportunities are endless at UMR. The university offers an excellent scholastic program as well as numerous activities. With over a dozen engineering majors, and quite a few other ones, UMR is the perfect place for an education. Varsity and intramural sports, concerts, clubs and honorary societies; these are just a few of the many extracurricular activities that UMR has to offer.
- UMR students have to manage their time wisely. The busy schedules of students often involve numerous hours of studying and attending classes. Eating, sleeping and countless organizational meetings are crammed into a single day. Yet, through all of this, these students still find a little bit of time to play and keep for themselves.
- The extensive education that is received at UMR prepares students for what is beyond the walls of campus. Going above and beyond what is expected is what places students at the top. All of this is what gives UMR the advantage to **BEAT the ODDS**

Does it ever end? UMR strives to make the campus a better place. Last year the Electrical Engineering building started on expansion, and is still under construction. The Rolla Building, UMR's oldest, is now being renovated. So what is next?

Spring semester 1997, UMR's campus started more construction. The ground around campus was dug up in order to place a sprinkler system in the grassy areas. Hopefully, this will lead to UMR making grounds to BEAT the ODDS

#### Greek Week

#### Greek Week 1996

Exuberant cheers could be heard coming from all directions, and eventually the competitors felt accomplishment as their event was completed.

During Greek Week, many cheers are heard throughout Rolla as support is shown throughout the Greek community.

The fraternities and sororities show their excellence with events such as the tug-of-war and potato gun competitions. There are also events like the carp toss and Karaoke which add some interesting reactions from spectators. All in all, there are many activities for people to compete in that ensure a good time.

On another note, Greek Week motivates house members to do many things for the good of the community. Greeks can earn points for their houses by participating in the blood drive, a walk for charity, canned food donations, and aluminum can recycling. Many factors are calculated in order for a fraternity or sorority to reign supreme during Greek Week.

The Greek Week champions among the fraternities was Pi Kappa Alpha. In addition, Pi Kappa Alpha's Queen candidate, Mozow Yusof, was awarded Greek Week Queen champion. The second place trophy went to the men of Kappa Alpha, the third place was secured by Sigma Pi fraternity. Many other fraternities also put in countless hours to make Greek Week the best it could possibly be.

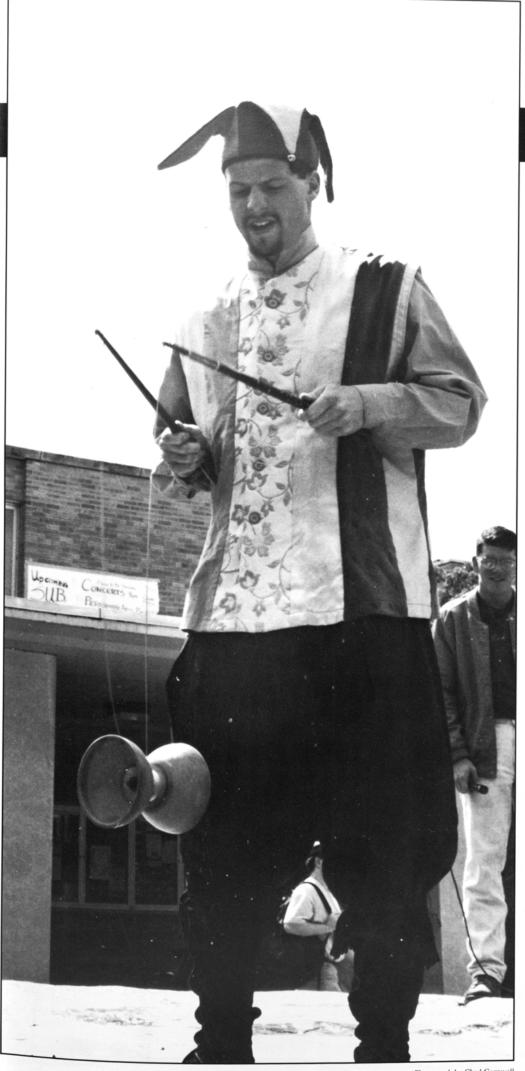

Zeta Tau Alpha was declared the champion among all of the sororities. Kappa Delta came in second place, while Chi Omega received third place. The championship for the sororities was decided by a margin of eighty-two points, proving that earning the title was a competitive race.

At the end of the week, people were able to look back at the games and say that they had a great time Whether supporting their organizations or competing in stupid human tricks, Greek Week 1996 provided for a good time to be had by all!

#### Homecoming

#### Going for the Gold: An Olympic Homecoming

Homecoming '96 was kicked off Monday, September 30 with the opening of campus-wide voting for Queen. As the week progressed, students participated in games such as a triathlon, pie eating contest, belly flop, Jell-O wrestling, egg long jump, and stupid engineering tricks. A scavenger hunt was organized and students collected clues at the Queen's voting table.

Organizations scored points for placing in these completions and others. The overall competition winners were: first place, Pi Kappa Alpha; second place, Beta Sigma Psi; and third place, Sigma Pi.

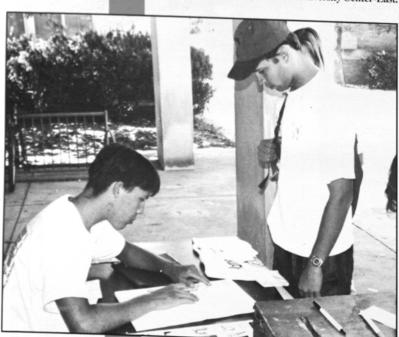

Friday afternoon, a golf tournament was held in which students and alumni alike could play. To support the Miner Football team, M-Club started a pep rally during halftime of the men's soccer game Friday night. Saturday morning, the Miner Cross Country team hosted their only home meet, with many alumni participating.

At one o'clock Saturday afternoon, the Miner Football team took on Missouri Southern State College. During pregame, the Queen candidates were introduced. At halftime, Diana Alt was crowned Queen. The runners-up were Shannon Neimeyer, Brandy Smith, and Amy Johnson.

Although the Miners let Missouri Southern slip by in the football game, the week truly was in the spirit of an Olympic Homecoming.

### St. Pat's '97

### The Best Ever

The wheels on the 89th annual St. Pat's celebration began to turn early in the fall semester, when everyone's favorite baby reps began to sell sweatshirts to the campus and community. The official celebration began on March 4, when the snakes make their move. Luckily, there were many freshmen eager to kill all the snakes during snake invasion week.

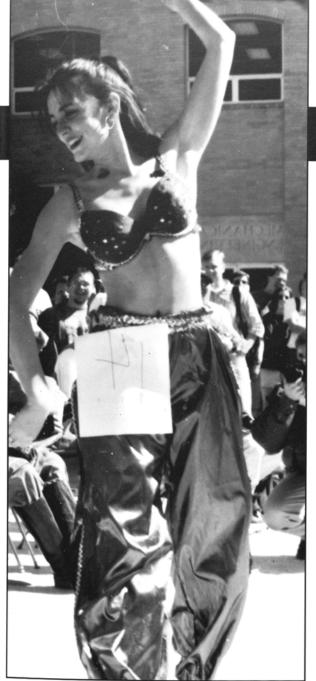

On Monday, follies were held at the puck when students competed in events like: Greenest Person St. Pat's Jingle, Full Beard, and Sumo Suits. Tuesday the follies continued at the puck with Most Sweatshirt and Most Garters in a Minute contests. The follies came to a close Wednesday at the Bandshell when St. Pat and his Court entertained the Leprechaun Look-a-Like Shillelagh, and Women's Walking Stick contests.

Mother Nature thought she would get involved on Thursday, and the rains began. They continued al day, so Gonzo and Games were moved to the multipurpose building where cudgel judging and other games were held. Friday brought much of the same and Gonzo concluded in the multi-purpose.

Since there was no St. Pat's concert this year the celebration was concluded on Saturday morning with the parade. The cold weather held some people back but those who braved the weather were greeted by floats, cudgels, cars, and a parade of shillelagh-wielding freshmen.

With the lack of Alice in this year's celebration, we'll all just have to count down the "DAZE" until the 90th annual, and try to make it "The Best Ever."

Devereux surpasses the competition with a belly dance.

### Gilmore

Playing defensive football requires many things. It requires toughness, strength, quickness, agil-

ity, aggressiveness, tenacity and heart. Remembering all these words can often make coaching a division II football defense pretty tricky. Luckily for UMR coaches for the past three years they only had to remember two words—Brian Gilmore.

Since he strapped on his first set of pads as a second grader in Lexington, Illinois, Brian Gilmore has been a linebacker. He played there all the way up to an outstanding high school career at Potosi, Missouri. He initially came to UMR with some reluctance after being dumped by some perspective Division I schools. But, this high school valedictorian was encouraged to give UMR a shot by everyone in his home town just because of the educational opportunity it provided him. Gilmore also knew that at UMR he would begin to play immediately, rather than waiting until his junior year to see a game field at a Division I school.

Since that fateful decision, Brian Gilmore has not looked back as he became one of the most distinguished football players in UMR history. He has won countless national scholarship awards for his talents on the field and in the classroom and he has the stats to back it up. All three years he played as a defensive starter, Gilmore led the team in tackles. That amounted to a

total that was second on the all time list, just 15 short of the UMR record. He was a second team all conference linebacker his senior year and three times during his career he was named to the 1st team Academic All-American team. This was quite a feat. Only one other person in MIAA history has made the Academic All-American team three times. Brian Gilmore is the only person in MIAA history to make the first team three times. Possibly the biggest honor Gilmore received was

when he was named a National Football Foundation Scholar Athlete. This is an honor given to only two division II players each year. As part of this honor, Brian got to spend three days in New York in the company of the nation's most outstanding scholar athletes, including Heisman trophy winner Danny Wuerfell.

Gilmore attributes a lot of his success to the work ethics that his parents instilled in him as he grew up on a farm. He plans to continue his hard work as he enters graduate school next year. In addition to pursuing a masters degree in Ceramic Engineering, Brian plans to be married in August. In five years he hopes to be starting a family and establishing himself in industry as well as he did on the football field.

# Tim

Photo by Chad Cornwell

# Holloway

Mcluer High School product Tim Holloway will certainly be remembered for a long time by UMR basketball fans. After starting for four years, Holloway leaves the Miners with a slew of victories and several career and season records.

Like most great athletes, Holloway started at a very early age. "I was so young that if you hit the rim

you got half a point", said Holloway about his experiences as a YMCA basketball player for a team that his father coached. Not only did his father teach him how to shoot his first jump shot, but Tim credits both his parents with giving him much more. "When you start something you stick with it", is how he described the work

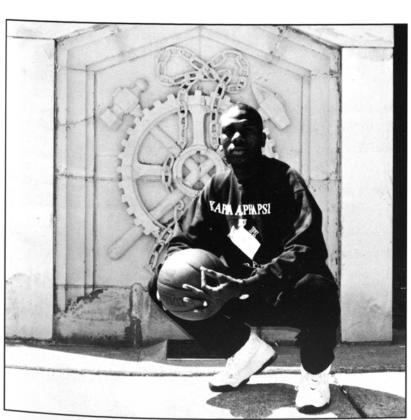

Photo by Chad Cornwell

ethic that his parents instilled in him.

The support of his parents is only one of the factors that allowed Tim Holloway the achieve such suc-

cess. Tim recognizes the fact that he has a great deal of God given talent and he is very thankful for it. Like all good sportsmen he also gives a great deal of the credit to the players and coaches around him.

So just what has Tim Holloway accomplished as a UMR basketball player? His senior year he led the team in scoring and he led the MIAA conference in free throw percentage. He was also fifth in the nation in free throw percentage. He set school records for season free throw percentage and career free throw percentage. Holloway had three separate games where he made at least ten free throws in a row, including a Pittsburgh State game in which he was thirteen for thirteen. During his senior season, he was named conference player of the week twice and made first team all conference. He also was named MVP of the Pepsi Cola Ameritech Shootout three out of the four years he played. For his career, Tim Holloway leaves near the top of several statistical categories. He is second in UMR history and third in MIAA conference history with 241 career threepointers. He is second on the all-time UMR scoring list with 1571 points. Tim Holloway is also the all-time leader in assists for the Miners with 343.

Despite all this success, he still has the control to walk away from it all. When asked to comment on his future plans, this economics major stated that he wanted to graduate next December and added,"I have no burning desire to keep playing basketball, if it works out, great, if it doesn't, that is OK too."

# Looking into the Future

After a starting record of 2-0, it seemed that the miner football team was off to a great start. The Miners blew out Quincy with a 41-0 victory and followed that game up with a win over Missouri Valley. But they were soon to fall by the wayside. After dropping the next few games, the miners were plagued by injuries, mainly the absence of Dan Van Ann at quarterback. The

Miners eventually recovered to win their game against Southwest Baptist, and then finished the season playing against two powerful teams, Pittsburg State and Missouri Western.

Despite the overall season, there still was of course some bright spots. Brian Gilmore, Elliott Jackson, and Dan Van Ann received 2nd team all conference honors, and many others received all conference honorable mention including Mike McEnery and Gary Tomlinson. Other players who contributed a lot during the season includes Russell Zung, Steve Hodson, and Brian Tillman.

In the coming season the team will lose many seniors, most notably Courtney Porter, Gary Tomlinson, Brian Gilmore, and Mike McEnery, but they are confident in their younger players. Freshman

# A Season of Ups and

### Downs

It was an up and down season for the UMR men soccer team this year. Pulling off a season right at .500, the team fought to win every game they could. After starting off the season at 2-4-1, the team pulled together to win three straight games. From there the Miners took some tough losses before once again pulling out a few victories.

The team ended the season with three very close games, first losing to Truman State and Drury in overtime, and then winning at home against Wheeling Jesuit.

One notable point during the season was a victory against the University of Missouri-St. Louis. The Miners defeated the Rivermen for only the second time ever. Also, many players were named to All-Confer-

Photo by Boyd Niesen Freshmen Mike Shriner and Matt Long combine to break up an offensive push during a Miner home game.

ence teams, including Gevan McCoy and Greg Schulte to 1st team All-Conference. Pat Boyce, Mike Kiefer, Keven Levy, Brian Koscielski, and John Almeida who is a freshman made 2nd team all conference.

Following last year's great season and this year's .500 record, the soccer team is looking toward the season to come. Many key players will return next season, and under coach Mark Salisbury the team should fair very well.

Mike Shriner and Pat Boyce scramble for the ball during a UMR home game.

### Ahead the

### Pack

The 1996 men's cross country team turned in a respectable performance. But one person in particular had an outstanding year. Junior Ben Mulvaney qualified for the NCAA championships in California and made the All-American team.

The cross country team started off their season with a third place finish in the USI Cross Country Classic with 75 points. From there the team traveled to Lawrence, Kansas to compete in the Jayhawk Invite where they finished ninth against some steep competition. On September 21, UMR ran in the Southern Stampede and came in sixth place. Then on October 8 at the Miner Invitational, UMR finished in second place with 56 points, just 4 points behind the winner SIU-Edwardsville. As the season was drawing to an end, the cross country team placed fifth and sixth in the CMSU Invitational and the MIAA Championships in Kirksville, respectively. UMR closed out the season on November 9, at the Great Lakes Regional Championship with a ninth place finish.

The top miner runner this year was clearly Ben Mulvaney who was named to the All-American team. He turned in times like 25:49 at the Jayhawk Invite and 26:01 at the Southern

# Heather Hartman

For the past four years, the deed of ownership to the paint at UMR womens' basketball games has had one name on it—Heather Hartman.

And those who questioned her ownership have become just another blocked shot on her long list of statistics.

Unlike most college athletes, Heather Hartman wasn't ever interested in any other sports. "I started playing basketball in the fifth grade. I just kind got a wild hair and decided to play. It was the first and only thing I ever really wanted to do," said Hartman. She continued to play all the way through high school.

After graduation she had to the opportunity to play at a junior

college, a division III school and UMR. She decided on

UMR out of a desire to bring her game to a higher level. Hartman felt that UMR played on this higher level while her other choices were not much above her high school competition.

To bring herself to this higher level of play, Heather has worked very hard. Running, lifting weights and practicing have allowed her to attain her goals. Not only did she play on the college level, but she excelled. Three times she was

named to the academic all-conference team. Hartman

is the fourth leading scorer in UMR history. She is second in rebounds and holds almost every record in the

book for blocked shots. To say she holds every record is not much of an exaggeration. As a sophomore, Hartman was ninth in the nation in blocked shots. She has the top three single season totals for the statistic at UMR. All of this has brought Heather to be first in blocked shots on the all-time UMR list. She also has the third highest total of blocked shots in MIAA history.

Aside from all the statistics. Heather claims that her biggest thrill was to play in the NCAA regional tournament in Abilene, Texas during her junior year. "It was probably the scariest thing I have ever done and probably the neatest", said Hartman about all the pressure and publicity involved with the tournament.

Photo by Boyd Niesen about all the pressure and publicity involved with the tournament.

In the future, Heather Hartman plans for a routine that is a bit more easy going. She plans to graduate with a degree in math and education. She eventually plans to teach on the junior high school level and coach basketball if possible.

# Bill

Photo by Boyd Niesen

# Unzicker

For the past few years, the most successful sport at UMR has not been basketball, football or any of the other sports that traditionally receive the most attention. In recent years the sport with the most championships under its belt has been swimming.

The most well known name in UMR swimming has been Bill Unzicker. Bill Unzicker has attained All-

American status twice in his four years as a UMR swimmer. He has also competed at the national level during all four of the years that he competed. His senior year he also came in first in five events at the regional competition.

As a chemical engineering major, Bill has also had to spend a great deal of time with his academics. "I've gotten myself into a lot of jams where I had to stay up to 3 am doing homework and then get up for 6 am practice," said Unzicker. He attributes a lot of his success to being able to properly manage his athletic career with his academic career. Unzicker claims that often success in one arena will inspire him to continue in the other.

Out of school he still remains busy. Twice he has spent to summer as an intern working for DOW chemical. When he is not building an impeccable professional resume, he swims for a USS registered swim team in his home town of Decatur, Illinois. In the immediate future, Bill Unzicker plans to serve as assistant coach for the Miners as he finishes out his undergradu-

Photo by Chad Cornwell

ate degree. He then hopes to obtain a full time job working for DOW chemical.

# Back Where Woods Belong Back DATE Sat, Nov. Sat, Nov.

After winning the Mideast Regional Championship three years in a row the Miners finished second in 1996. This past year they were out to regain their crown. Led by several strong performances including that of freshman Dave Nurre, the Miners were able to regain the championship and put themselves back where they belong.

But the most impresive aspects of this season were yet to come. The Miners would later qualify eight swimmers to the NCAA Division II championships in San Antonio Texas. The eight swimmer were Bill Unzicker, Randy Jones, Brian Korsedal, Steve Caruso, Tom Beccue, Kris Leftwich, David Nurre and Mark Pearce. This was a group made up of five freshman, one sophomore, one junior and one senior.

The Miners went on to finish eighth overall at the Division II championships. This ties the highest finish of any swimming team of the Mark Mullin era.

There were also some impressive individual highlights for the Miners. Freshman Dave Nurre broke the UMR school record while swimming in the 200-butterly at the national championships. This has been the longest standing record in the school lasting for over 20 years.

# Unexpected

# Finish

With eight returning letterman from a MIAA Championship team and two players returning from being redshirted, there were high expectations for the UMR basketball Miners. Up to the Christmas break, they did not disappoint. They were 9-1 and ranked as one of the top twenty teams in the nation. But then it all started to fall apart.

Forward Marc Tompkins and Guard Kevin Conkright were both sidelined by injuries. Point guard Cam Lindsey was also lost to academic difficulties. On a team with limited depth, brought on by limited scholarship oppurtunities, this proved to be too great of an obstacle to overcome. The Miners started to lose and eventually did not even make it to the conference tournament.

There were still indivdual bright spots in this season of disappointment. Senior Tim Holloway won the conference title for free throw percentage and led the team in scoring. He also became the all-team leader in assists for UMR during his senior season.

Jeff Kokal finished his career at 16th on the all-time UMR scoring list. He also ranks as the school's top shooter from the floor with a career percentage of 57.6.

In just two years at UMR Terry Smith managed to climb his way to number three on the all-time three pointer list. he also set a record for three-pointers in a game with ten agains Lincoln on February 12.

Amber Fischer faces a tough double team.

# Early Exit

After posting eight consecutive winning seasons and following a season in which they were MIAA champions, the UMR Lady Miners were expecting big things from their season. But much like the Mens' team, their ignition buttom was pushed but their rocket to a second straight MIAA championship just fell over on the launch pad.

The loss of Tobi Rees and Becky Reichard greatly affected the team. Their lack of depth really began to show. Luckily the Miners had a coule of transfer students to lift them up. Emily Mills was the Miners' leading scorer. She compiled a season total of three-pointer that

was the second best in UMR history and third for that year in the MIAA.

Junior LeAnn Farmer tied the single game assist record wih 12 and went on to shatter the single season mark set by Christie Williams just a year earlier.

Senior Heather Hartman finished a stellar career by adding a few more records to her list. This included a new total for the UMR leader in career blocked shots. She also ended her career as the school's second leading rebounder and the school's fourth leading scorer.

As a team, the Miners also set several records for three point shooting.

Dee Johnson shoots the ball in heavy traffic.

# Angie Bax

For the past four years, the name Angie Bax has been synonymous with UMR Softball. This pitcher/outfielder has a been a solid competitor in the Lady Miner line up her entire college career and especially during the Miner's record breaking thirty win season. Angie Bax came from meager beginnings in the small town of Rich Fountain, Missouri. This town may have had less people in it than a tenth of the UMR student population, but that didn't stop her from getting started in softball at a young age.

At the age of seven, Angie Bax started playing little league softball. She continued to play all the way up to the high school level where she also was active as a basketball player. Bax came to UMR because of its good educational value and it close location to her home. She was also attracted by the opportunities the softball team offered. She saw the UMR team as up and coming with a competitive spirit but without the pressures of that would be found at a Division I school. She also liked the idea that she would get to play in the field, as opposed to being just a pitcher at a larger school.

To assess her performance at UMR, one just needs to glance at her statistics. Her senior year, Bax recorded a 16 wins and 10 losses while striking out 75 batters in 164 innings. She finished the season with a 3.02 ERA and 2 shutouts. At the plate she banged out 54 hits to tally a scorching .370 batting average. Along the way she got eight doubles, four triples and 25 RBI's. She holds the school record for RBI's in a season with 45. Her junior year she batted .378 to earn honorable mention all conference and second team all region honors. Her outstanding senior year earned her a position on the all conference second team.

Photo by Mike Weber

In the future, Angie Bax planns to put softball behind her. She will graduate from UMR with a degree in English with a minor in history. She hopes to teach on the high school level somewhere in central Missouri.

# Jamie

Photo by Rod Lentz

# Brueggeman

More often noted for his stellar basketball career, Jamie Brueggeman is not very well known for his exploits on the track team. But without a doubt, his accomplishments as a high jumper rival those he had as a basketball player. In addition to that, he has enjoyed a fine academic career during his four years at UMR.

Jamie Brueggman finished sixth at the MIAA indoor track championships in the high jump with a jump of 6' 6" 1/4. He had finishes of fourth at Arkansas State and tied for sixth at

Arkansas during the indoor season. During the outdoor season, he won the event at SIU-Edwardsville, finished second at Pittsburg State, Arkansas and Lincoln. Brueggeman earned third place finishes at Washington University and Central Missouri-State University. Brueggeman had his best jump at the conference track meet at Emporia State where he finished seventh.

Twice he made the MIAA all-academic track team. Three times he has made academic all conference as a basketball player and once made the all-conference second team for basketball. His sophomore and junior year he was also named honorable mention All-MIAA. Possibly his greatest honor was to be runner-up for the Ken B. Jones Award for the MIAA "Athlete of the Year".

All these honors do not come without hard work. Brueggman spends a lot of time lifting weights and working on his game. He does however admit that he takes track less seriously than basketball. "There is not as much discipline involved in track, it is more of a fun thing, where basketball is more of a job," said Brueggeman.

In the future, Jamie Brueggeman plans to graduate from UMR with a degree in structural engineering. He then plans to stay on and earn his masters degree in the same subject.

# Transfer Me

# to the Playoffs

After experiencing the longest absence from the conference tournament of any MIAA team, the UMR miners took the MIAA Conference Tournament by storm with help of a few transfer students.

For the first time in ten years the UMR baseball team made it into the MIAA Conference tournament. No one expected the Miners to make much of a showing, but they proved everybody wrong. After losing the first game of the double elimination tournament, the sixth seeded Miners won four straight games. This put them in a position to play Central Missouri State for the conference championship in a best two out of three series.

In the first game of the series, the Miners were up 8-7 in the bottom of the ninth with two outs. After an error, a double and a bloop single the miners had lost the first game and all hopes of winning the conference with it. The down-spirited Miners were routed in the second game and their season was over.

As was mentioned earlier, this great season was due largely to

a few talented transfer students. Scott Hopper and Pat Sisco batted over .300 for the season. Sisco also tied for the team lead in rbi's and tied the UMR record for doubles in a season.

Catcher Mike Williams was a leader on and off the field. He led the team with a .357 batting av-

erage and tied the school record for runs scored in a season with 29. Junior Matt Bryant provided the power in the Miner lineup. Bryan batted .352 and set a new UMR record with eight home runs.

The Miners also sported the second -ranked pitching staff in the conference. This was a staff led by Tom Winkelman and Tim Rhodes who both recorded 5 wins. Kevin Hill and Mike also provided heat when necessary.

Junior Ted Ingalls is held up at third base by Coach Bouleware.

# Season for the Record Books

It was a record breaking season for the UMR Lady Miner softball team. As a team, they set a new record for wins in a season. This record breaking win came over nationally ranked Columbia College. Even more impressive is the fact that the Lady Miers accomplished this feat while starting an average of five freshmen every game. Truly this indicates the UMR softball team will be a force in the MIAA for years to come.

Individually, the main standout for the Lady Miners was junior Becca Alt. She set UMR records for hits in a season and stolen bases in a season. Her stolen base total was also good enough to establish a new MIAA record. Alt stole 65 bases in all while only being thrown out one time.

Angie bax also had an outstanding season. She batted .370 with 25 runs batted in at the plate and led the team with 16 wins as a pitcher.

These spectacular individual performances earned Becca Alt all-region first team honors. Angie Bax was named to the all-MIAA all academic team and to the all-region academic 2nd team as well as to the all-MIAA second team as a utility player.

First basemen Jamie Ostmann was also named to the first team all-region team. Ostmann batted .338 and tied Amber Schrecengost for the team lead in home runs with 2. Schrecengost's performance earend her a spot on the all-MIAA second team along with Shawnna Morris and Jamie Ostmann.

All together the Lady Min-

ers had a good season with big wins over nationally ranked teams like Missouri Southern and Pittsburg State. Unfortuanely they slumped when it counted and a quick double header loss to SIU brought there season to an end short of the the MIAA tournament.

Varsity Softball, Row 1, Amber Schrecengost, Gina Daugherty, Erin Collins, Kerri Bokath; Row 2, Candice Luehrs, Becca Alt, Andrea Sager, Jen Damron, Jaime Ostmann; Row 3, Shawnna Morris, Tory Atwood, Angie Bax, Melissa Rohrer, Brandy Broeckling.

Junior Becca Alt successfully steals one of her record breaking 65 stolen bases.

# Hole in One

Helped greatly by a hole in one by freshman Mark Winschel, the Miner golfers tuned several heads at the conference golf match at Hidden Lakes golf course in Osage Beach, Misssouri. The seventhranked Miners were sitting pretty in 3rd place after the first day of competition. Unfortunately they did not fare as well for the remainder of the tournament. The Miners were in unfamiliar territory playing alongside powerhouse teams Central Missouri State and Missouri Western. Nerves got the best of the unnexperience team and they finished in a tie for sixth in the conference. But the entire experience will help the team next year when approximately seventy percent of the team will be freshman or sophomores.

Individually the Miners were led by senior Brian "whitey" Panka. Panka was the Miners #1 golfer at all matches and brought a great deal of experience to an unexperienced team.

The MVP for the team was freshman Andrew Laegler. Laegler played #2 for the Miners for most of the year and combined with Panka to have the best score at the Miner's annual Best Ball Tournament.

Truly this is a team for the future. First year coach Ray Leuellyn will definitely look to Laegler to lead the team for years to come. Other players that will definitely play a large role will be freshman Charles Smith, junior Bill Kuess, freshman Mark Winschell and freshman Jeff Dubrava.

	MINER GOLF

# Team of the

# Future

Over the past few years the UMR tennis team has been gaining steam in MIAA play. They have had a winning record for the past five years and this past year they made distinct leap in the quality of their competition. Their sub-.500 season is a deceiving gauge of how well the Miners performed in this stepping stone season.

The Miners lost a key player in Methi Bengisu due to academic probelems. But other players stepped up to fill the void. Transfer student Sergio Esteban provided a great lift for the Miners. This division-I transfer played #1 for most of the season. He eventually finished 4th overall in the conference.

Matt Hamlin and Matt Balven finished fourth in #3 doubles in the MIAA, but more important than these solitary performances is the fact that the Miners made a transition to a higher level of play. With Methi Bengisu returing for the next season and two new students coming in the, Miners are looking to be very successfull in MIAA competition next year. This would be a very big accomplishment in one of the best division-II tennis conferences in the nation.

Head Coach Todd Franklin gives a lot of the credit for the rise in UMR tennis to seniors William Zung and Matt Hamlin. Both of those players have been solid performers that had a great positive influence on the entire program. The future is very bright for the UMR tennis team and next year they will no doubt improve on their sixth place finish in conference from this year.

Ben Mulvaney and Matt Hagen pace each other at the Arkansas State indoor

track meet.

# Overcoming Obstacles

The UMR mens' track team was led by several outstanding individual performances.

Matt Hagen finished 5th in outdoor conference meet in the steeplechase. He also finished first in two such events during the season.

Ben Mulvaney was 2nd in the 10,000 meters at conference, giving him the highest place of anyone on the team. He also came in first three times in various events throughout the season. These accomplishments earned the honor or outdoor MVP.

Sophomore Mike Weinkauf also had three wins during the season. He qualified for the finals in the 110 hurdels and 400 hurdles but was unable to compete due to a back injury. He finished the season with more points than any other team member.

High jumper Jamie Brueggeman also made great contributions to the team. At the indoor conference meet this senior was the only individual to place. He came in 6th in the high jump.

Brian Gorman was the indoor track MVP. He set a school record in the 35 pound weight throw with a throw of 51' 9" 1/4. He was injured during most of the outdoor season, but he came back to finish 6th at the conference meet in the hammer throw.

It is also notable to mention Richard Woods who came in 6th in the triple jump at outdoor conference meet and Damian Johnson who came in 6th in the 800 at the same meet.

Cross Country and Track MVP's Sheri Lentz, Ben Mulvaney, Brian Gorman and Tracy Jones stop to

pose for a picture at the annual M-Club awards banquet.

# Keeping Pace

The story of the womens' track team was junior Tracy Jones. The team finished 8th overall at the MIAA outdoor championships and Jones was the only individual to score points. She did this with a fifth place finish in the 1500 meter run and a sixth place finish finish in the 800 meter run.

It is no surprise that Jones was the Outdoor track MVP. She also competed in the 4x400 relay team during the course of the season.

Jones was also a team leader during the indoor track season. She set a new indoor school record in the 800 meter run where she finished 3rd. For these performances on the indoor circuit, Tracy Jones earned MVP honors for that venue as well.

Other contributors on the women's track team were Abigal Knapp and Sheri Lentz. In the school's first year of competition in the event, Knapp managed to set school pole vaulting records both indoors and outdoors. She also placed second in the high jump at the SIU-Edwardsville Twilight meet. Sheri Lentz came in second in the 5000 meters in the same meet.

Several Miner athletes posted high finishes at the SIU-Alicia Edwardsville meet. Klusmeyer came in second in the javelin. Sheryl Ziccardi came in third in the 3000 meters. Serena Jagtiani finished third in the 5000 meters. Sophomore Robin Paarlberg competed in the 400 meter hurdles, also finishing third.

# Hard Fought Victories

Photo by Kali Snelling

After rebuilding in the fall semester of 1996, the winter semester proved to be a very successful season for the UMR Rugby team. With the guidance of new coach Adrian Deneys, the development of new rookies, and the steady play of seasoned veterans, the team was able to compile a record of 11-2. This was the best season for any of the members of the team.

The semester started with the Mardi Gras tournament held in Baton Rouge, Lousiana. Having had barely any practice prior to the tournament, the UMR Rugby team surprisingly came away with the Division II Championship with hard fought victories over Longwood University, the University of Deleware, and Louisiana Tech. UMR was also victorious in the annual St. Patrick's Rugby Tournament held here in Rolla over the spring recess.

The only two losses of the season were both to the Mizzou Tigers. The UMR Ruggers fought hard but came up short to the up and coming rugby powerhouse of the region.

### UMR Rugby Final Record: 11-2

Phi Kappa Theta currently has 72 active members with 2 away on co-op. The brothers of Phi Kappa Theta have had a very productive and active year. They have received the Founders Cup award for being the best chapter in the nation as well as winning St. Pat's for the first time in house history. As always, they have placed high in intramurals as well. They also have contributed to community service including: highway cleanups, charity benefit dinners, tutoring Rolla Public Schools, and working with Big Brothers/Big Sisters. The brothers of Phi Kappa Theta have had a busy and enjoyable 96-97 school year and wish everyone the best of luck in the upcoming year.

The men of the Missouri Gamma Chapter of Sigma Phi Epsilon enjoyed a busy, but excellent all around 1996-1997 school year. The chapter proved to be a house of balanced men with strong finishes in academics, intramurals and recruitment. Our 2.98 GPA for the fall of 1996 was third among fraternities and above the all-greek, all-campus and all-men's GPA. Sig Ep sucessfully defending it's overall intramural championship for the third year in a row, and also extremely proud to welcome 33 new members into our house this year.

Sig Ep's also had strong finishes in St. Pat's, Homecoming and Greek Week and enjoyed the company of the amny alums returning for all three celebrations. Our chapter's cudgel placed third overall based on the theme of Dr. Seuse, who was a Sig Ep at Dartmouth University. Missouri Gamma was represented in the Homecoming game by eleven Sig Ep varsity football players.

The brothers of Sigma Phi Epsilon have been busy with community service projects including a two minute shopping spree at Kroger for one lucky Rolla citizen with the proceeds going to the Cerebral Palsy school. We also help clean up, remodel and landscape the Cerebral Palsy school each semester. The 1996-1997 year was a great one for the men og Sigma Phi Epsilon and we hope to continue our sucess for the 1997-1998 school year.

## The Entertainment Exchange at UMR

#### is Living on the Edge

Whether it is day or night, breakfast or dinner--or somewhat later, students engaging in an entertaining activity can be found everywhere. Students need plenty of mindless pleasure to take away school worries and stress that accompany UMR.

On-campus activities constitute a large portion of the entertainment here at UMR. With well over 100 organizations planning thousands of activities a year, the student body has plenty of options. Activities such as

Duds 'n Suds--put on at the beginning of the year for everyone in the dorms first load of laundry, the numerous Star Wars shuttles, games, and trivia contests celebrating the rerelease after 20 years, the weekly movies shown in the Mechanical Engineering room 104 by SUB were very common plcace for the students. Without the Greek organizations, Residence Hall Association (RHA), Student Union Board (SUB), and many other large groups many

of the activities that students participate in would be gone--then what? Many more students would be losing their minds.

With plenty of fast-food establishments, The Open Hand, and the Walmart--open 24 hours--there is never a dull moment. A lot of students find entertainment in outside organizations, too; for example, the Big Brothers/Big Sisters club and various youth groups at area churches provide activities for students. Although the city of Rolla is relatively smaller than some other cities in Missouri, students can mostly find something to do; otherwise, there are 4 major cities within an hour and a half.

The student body at UMR is never left without entertainment decisions to make and to enjoy. Events such as St. Patrick's Day, its various individual activities, and the other 31 weeks of school events provide a lot of invigorating entertainment for all.

The men of Theta Xi have had lots of success over the last year. For St. Pat's 1996 there was St. Pat, Ryan Fisher and Guard, Gary Farwig with a second place float and finishing third overall in St. Pat's. This fall Trent Weaver was Zeus for Greek Week 1996 not to mention first place on the float "The Butter Battle" and Page Chris Essig for St. Pat's 1997.

## Chi Omega

#### is Living on the Edge

Photograph submitted by Chi Omega

The 1996-97 school year has been bery successful for the ladies of Chi Omega. At the start of the fall semester, they kept busy during formal rush when they gained fifteen wonderful pledges. They also initiated six new members at this time. Later in the semester, they held their 2nd annual "Singled Out" fundraiser. Throughout the semester Chi Omegas could be seen helping out the community; many volunteered their time at St. Patrick's Elementary School. Even with all of this activity, Chi Omega received the highest average GPA for all organizations.

In the spring semester, Chi Omega gained six pledges through informal rush. And, in mid-February, Chi Omega held its Annual Spaghetti Dinner for charity. The dinner raised over \$1200 for the Adopt an Owl program, Rolla Youth Soccer League, and the Russell House. During St. Pat's, Chi Omegas had a great time participating in Follies, Gonzo and Games, and the Parade--and won 1st place among women's organizations.

The ladies of the Epsilon Alpha chapter of Kappa Delta Sorority kept very busy this year. In the fall they had a "Kappa Delta Winter Wonderland" theme party. The party included a Christmas tree and would not have been complete without a Santa and three little helpers. Kappa Delta also carved pumpkins for Halloween and delivered them to the other Greek houses. Kappa Delta took third overall in Homecoming, and continued the tradition for the third year in a row of having a KD homecoming queen. This year, they also continued the tradition of selling Kappa Delta Gold Cards to benefit the Children's Hospital in Richmond, Virginia.

Last year, they held many social events with fraternities on campus varying from a Mardi Gras party to a Let's Be Kids Again social. In the spring, they hosted their White Rose Formal and serenaded their dates the night before. Once again, they held the annual "Kappa Delta Campus Man Competition," raising more than \$1000 for the National Committee to Prevent Child Abuse. Last spring was also spent getting ready for their 25th Anniversary (October 23, 1997) on the UMR campus and 100 years as a National Sorority (October 28, 1997). Kappa Delta is proud to be the first sorority on the UMR campus and still going strong.

Overall, it was a wonderful year for the ladies of Kappa Delta.

Zeta Tau Alpha is a national fraternity composed of nearly 65 members. Zetas are invloved in many campus activities including: Panhellenic, Intramurals, Student Council, Honor Fraternities, and many more service organizations. Each year ZTA hosts an annual volleyball tournament for charity in which they donate all of the proceeds to their National Philanthropy, the Susan G. Komen Breast Cancer Foundation. They also participate in Homecoming, St. Pat's activities, Greek Week, and Greek Sing. Although they are every busy with social activities and service projects, they still find time to exceed academically. At their National Convention during the summer, they were awarded an Acadmic Award for their outstanding GPA improvement. Overall, ZTA gives its members campus and community involvement, leadership and organizational skills, social activities, and a strong bond of sisterhood.

## Working Out: An increase for the Better

#### is Living on the Edge

With the opening of the new recreational center, the campus of UMR has lifted their spirits in terms of physical activity. Seemingly, there has been a dramatic increase in working out over the past year. This includes: weight lifting, cardiovasular fitness, racquetball, basketball, and volleyball. Also, there has been an alleviation of pressure taken off of the shoulders of the varsity sports, by enabling them to use their facilites without interruptions by students. Let us examine some of the key aspects to this dramatic change.

On the campus people tend to be working out twice as much as they used to before the multipurpose building was changed. This is due to a sense of cleanliness that was enhanced by the addition of the new wing. Furthermore, when the capacity of the complex was increased this allowed people to feel as if they had roomier accommodations, and enabling them to avoid the stress experienced by over crowding. The racquetball games being played seems to have given the multipurpose building a top rate fitness club appeal. Even if for just one hour, a student can play racquetball and alienate themselves from the hardships brought on by top notch academia.

By designating the new wing of the multipurpose building towards students, varsity athletics are allowed to focus on their sports rather than reservation hardships broughton by conflicting interests. For instance, our championship basketball teams now have the ability to have their practices without worrying about sharing a gym. In addition, some of the spring sports like soccer, track, baseball, and softball are able to avoid the harsh conditions of old man winter by training on the indoor track.

Added enforcement's have been delegated to the protection of a student/faculty complex. At the front desk, identification must be presented before a person is allowed access to the building. On the other hand, some students complain about

the added surveillance with regards to free weights and towels. However, at some point we will be able to reach an agreement with each other if we just show some patience.

Overall, working out at UMR has increased and in keeping in stride with the nineties fitness consciousness has increased as well. The addition of the new wing to the multipurpose complex has given UMR a big school sense of pride. Even if this may be minimal, there still are new things created like the three on three basketball tournament and various other activities. It is difficult to create something new and expect perfection, but obviously we are headed in the right direction.

# The Challenge Your Room Gives You

#### is Living on the Edge

Where do you often eat, sleep, work on homework, study, and entertain? The answer by most students would be their room. Whether one is living in Greek housing or in the residence halls, rooms are full of everything one normally puts in a house. You can find couches, entertainment centers and plenty of clothes in any given room.

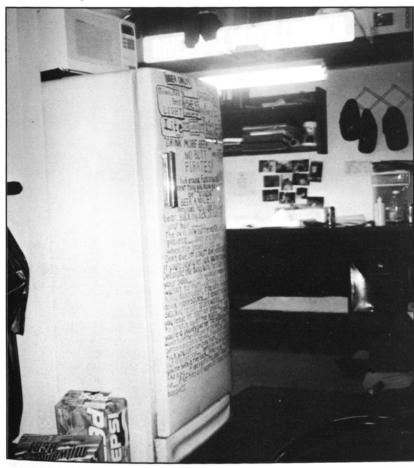

Getting the most out of the few square feet one has is a challenge to all and a triumph for some. Lofts condense the floor space taken up by the two beds. Beds were rigged up to be suspended in air by a contraption made of wood and chains which gave a set of roommates zero floor space devoted to their beds. Stackable entertainmetn centers including stereos, televisions, and video cassette recorders can be found in many rooms. Shelving systems are quite common whether it's a nice wooden arrangment or even the plastic Yaffa blocks which

help keep things in order for several students. Today, lots of desk space is often taken up by computers, so in some students' rooms you can find foldable card tables to be used with playing cards or textbooks.

Many people take pride in their room. You can find several rooms in the residence halls and in Greek housing with neon signs, Christmas lights, and wild deco lamps (including returning lava lamps). These fun items attract the eyes of many

people simply driving down the street. Door decorations, whether it be a dry-erase board or a name sign, are great for not only the resident but also the passer-bys to get a good laugh.

With a large majority of students living in university housing of one kind or another, the challenge most often is how to make their room a home for nine months of the year. The way it is organized and decorated can make a difference in an attitude.

# Food: Where Do We Eat?

#### is Living on the Edge

Cries of disappointment can be heard constantly while discussing UMR and food, but that is not totally true. If one seriously analyzes the food resources offered at UMR, it is very possible to be satisfied. The problem arises in that not all students are campus residents. Therefore, if a campus resident is in that unavoidable dilemma of constant cafeteria food; obviously, they will find little enjoyment. On the other hand, if a person indulges in the occaisional

sandwich or hot lunch, there are some enjoyable options.

The deli provides students and faculty with a fast and hearty lunch. Also, the atmosphere created by the deli yields to light conversation and to the extremely dedicated, a wholesome study environment. Most of the people who eat at the deli are involved in the points meal plan or on a cash money basis. Across from the deli people can find nourishment at cafe Unversity Center East.

Now, of the cafeteria style establishments on campus, U.C. East seems to be the most popular. They have an extensive variety of foods, and they have gourmet coffee as well. Also, the surroundings tend to be a little more subtle leading to a quieter study environment. The other cafeterias are located by the dorms. Rayl and T.J. also offer a wide variety of foods, and provide for the residents of their respective dorms. Also, Rayl and T. J. operate on an all

you care to eat system, and offer extensive salad bars.

Eating at UMR is a painless and relatively easy process, and if precautions are taken it can be zestful. Whether one is Greek, a dorm resident, or a commuter; there are plenty of food options for them to partake in. So, enjoy yourselves and may your ventures with food be pleasant.

#### JUGGLING

#### CLUB

Above: Curtis Miller, Chris Miller, Jeff Hansen, Hans Thullesen, Mike Pinerton, and Rob McDonald

The UMR Juggling Club provides a creative outlet for UMR students through the teaching, development, and productive use of juggling skills. The club provides instruction for first-time jugglers and offers assistance to move accomplished jugglers to learning new tricks. These skills are then used for entertainment purposes on and off campus. Jugglers are out at the puck for such reasons as Freshman Orientations and Parent's Day, as well as being a part of the Madrigal Dinners in December. Shows have also been given at local elementary schools, churches, and libraries in the Rolla area.

Above: The Gold Miner's guy/girl dance to Grease.

This past year was an exciting, yet hectic one for the Gold Miners. The ladies performed half-time routines at nearly all the home football and basketball games in addition to dancing on the sidelines at many basketball games. The traditional guy/girl routine for the Parent's Day football game got the crowd hopping to a medley from the musical *Grease*. The Gold Miners danced several other specialty routines, including one to Christmas music and a kick routine. For the football season, the captain was Tonica Iglehart and the co-captain was Gayle Hoppe. The the basketball season, the captain was Gayle Hoppe and the co-captain was Kathryn Burnside.

The UMR ASME student section has just completed two of its best semester in many years. In addition to the many events and activities that we participated in, we were also able to recruit about 70 new students during our membership drive. With industrial involvement within the unversity being a priority, we were fortunate enough to have speakers from NASA, Cargill, ASME St. Louis, along with a presentation on Pro-Engineer software. In addition, we took a trip to see a rapid-prototyping process in Fenton along with a tour of Union Electric's largest power plant, Labadie. We also took a trip to Chicago for the Annual Design and Engineering Show along with a trip to Lawrence, KS, to participate in the ASME Regional Coference. With regards to helping students academically, ASME introduced the first "Sneak Preview Day" to help underclassmen learn about technical electives during the winter semester and also made EIT review vidoes and literature available to ME students. Finally, ASME, in cooperation with the ME and AE Department, was able to participate in the 1997 South Central Regional Science and Enginnering Fair for High School students.

Third Row: Andi Jaegers, Julie Beachner, Michelle Phillips, Kym Hydeman, Liz Morris, Katy Holcomb, Carla Roth, Tami Bowman, and Melanie Overholt. Last Row: Amber Fisher, Diane Moellen hof, Jen Eckstein, Deborah Hummel, Lucy Knaup, Rachel Lewis, Amanda Gilbertson, Shauna Oppert, Sara Rudy, Michelle Irwin, Amy Carr, and Crissie Echoff.

#### CLUB

The M-Club is a Varsity Athletic service organization. Their purpose is to promote sports on the UMR campus and within the Rolla community. This year, the M-Club continued its Reading With Miners program and they also continued a long tradition of hosting Junior Olympicsin the spring. At the end of the year, they hosted the annual athletic banquet to honor outstanding Varsity and intermural athletics, teams, coaches, and supporters of the athletic program.

# OMICRON I AMBRA

Above: First Row: Angie Green, Trina Fox, Amy Swanson, Darcy Robison, and Miya Barr. Last Row: Billie Snodgrass, Shelly Willadson, Kelly Sink, Jen Geswein, Shelly King, Sarah Pulido, and Pam Miles. Not Pictured: Carrie Butler, Amy Percle, Mandy Sartain, Colleen Stemler, Ann-Marie Hoerner, and Leslie Crites.

Delta Omicron Lamdba is a service organization dedicated to promoting community involvement, campus activities such as St. Pat's and IM sports, social activities for Greek and non-Greek students, and educational events geered toward promoting womens' physical and mental health.

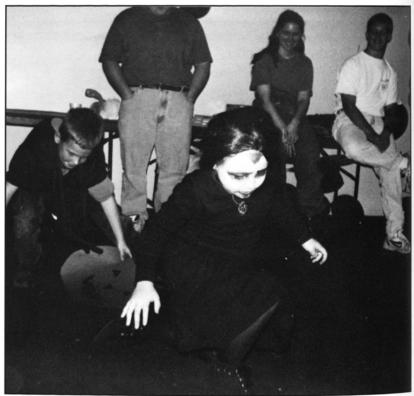

## PSYCHOLOGY

#### CLUB'

Above: Members of the Psychology Club hand out prizes for the best Costume contest.

Above: Students and Kids were caught off guard in a game of pumpkin relay

Left: Andy Sharp, Mandijo Cowell, Dr. Dee Haemmerlie, Jason Wagoner, Russel Zung, Mary Pully, Rachel Turner, Kim Thomas, Davina Curran, Catherine Heikkila, Karen Flowers, Shari Westbrock, Billie Snodgross, Kim Winborn, Heather McBride, Molly Johnson, Denbo, Mary Chapman, and Sherri Oberhelman.

The Psychology Club was very active this year. In addition to their semesterly Psych Sneak Preview, they participated in several service projects for the community. One of which was a Halloween Party for Big Brother/Big Sisters of Rolla. The students and kids played pumpkin relays, pin the spider on the web and ate plenty of treats. By the end of the night every kid walked away with a prize. In the past year the Psychology Club has been growing and is always looking for new members.

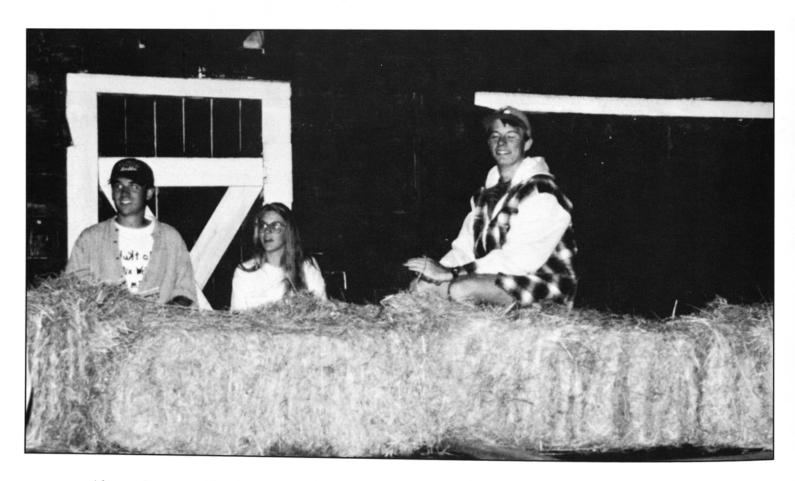

## RESIDENCE HALL-HONORARY

Third Row: Amy Tilling, Cassie Alsop, Jennifer Schaggert, and Jen Carlson. Fourth Row: Jessica Thomas, Dee Scheman, and Tara Jennings. Fifth Row: Karen Flowers, Stacy Garfield, and Stacey Cramner.

The Panhellenic Council acts as the presiding body over the sororities on this campus. Each sorority has six representatives serving on the council during one year. These representatives work toward improving relations with the town of Rolla, the campus and within the Greek community.

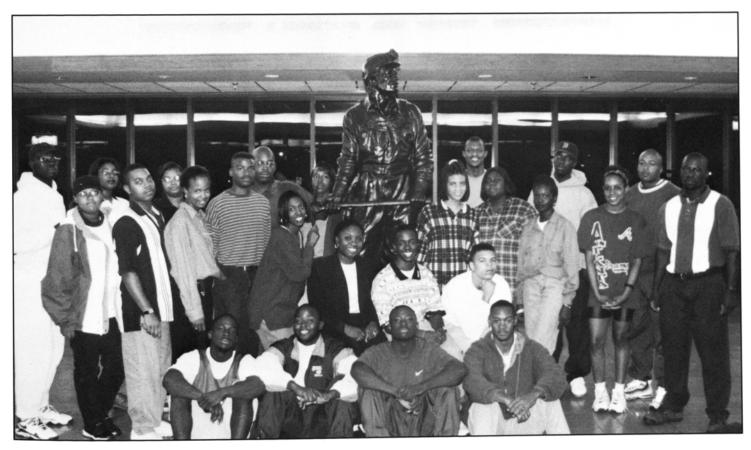

At the beginning of the fall semester, the Panhellenic Council organizes Formal Rush. During Formal Rush, girls are welcome to visit the three National Panhellenic sororities and join if they so desire.

Panhel also presents four campus-wide programs each semester on such subjects as networking, interviewing, and resume skills, self defense, date rape, and other important topics.

The Panhellenic Council also works closely with the Interfraternity Council to plan and organize Greek Week, Greek Sing, and Greek Hayride. Panhellenic and IFC also coordinate campus-wide aluminum, canned food and blood drives, which all benefit the Rolla community.

Panhellenic members also give prospective freshman guided house tours of all the sororities and they are available to answer any questions at our table on Preview weekends.

# NATIONAL SOCIETY - OF BLACK - ENGINEERS

Above: First Row: Maurice Dukes, Chris Williams, Kenan Morrison, and David Wells. Second Row: Gloresca Willis, Darrell Kinsey, Allyson Taylor, Richard Words, Joyce Smith, Tamiko Youngblood, Marcus Huggans, Kyle Jackson, Khara Broch, Lawandra Jackson (Treasurer), Erica Bobo, Carmen Murrell, and Zermon Drummond(President). Third Row: Chaz Jaquess, Tawanna Morgan(Vice President/Programs Chair), Mangoleta Ali, Jon King (Secretary/Parliamentarian), Tanya Cunningham, Arnold Wilkes, Leonard Walley, and Earnest Brown.

Our mission is to increase the number of culturally, responsible Black engineers to excell academically, succeed professionally and positively impact the community.

#### UMR

#### RAIDERS

Above: First Row: Brice Bickett, Margaret Snelling, Mike Hery, and Carla Roth. Last Row: James Swingle, Scott Preston, Kris Potzmann, John Miller, Bill Delong, and Anita Anderson.

### MALAYSIAN-STUDENT-

#### ORGANIZATION

Above: First Row: Azah, Nasir (with son, Aiman), Faisal, Roslee, and Azlina. Second Row: Katina, Suzie, Farihan, Alin, Hana, and Tun. Third Row: Fauza, Nazli, Nul Whoffal, Yusri, Shaidi, Ramadhian, Azahari, Muzammil, Nazlee, Lokman, Rastam, Emirul, Fariza, Bibi, Shuhaily, Syahirman, and Juliana. Last Row: Zairin, Sazali, Kamal, Bakhtiar, Fahmi, Redza, Biza, Hassan, Sahrul, Hong, Khir, Razmin, Jamal, and Khayrul.

The Malaysian Student Organization (MSOUMR) is one of the many student organizations under UMR's Student Council. The MSOUMR was very active in the activities conducted by the International Student Office and also the Student Council. Recently was the winner of the Badminton Intramural tournament and are currently participating in the soccer Intramural tournament. Apart from the MSOUMR was also the International Student Club's Volleyball Champion. All in all 1997 was a great year for the Organizaion.

#### RACQUETBALL

#### CLUB

Last Row: Darren Mulfor (Founder), Brian Call, Chris Rickey, and Lee Fuhrman. Not Pictured: Ryan Mueller (Vice-President), Gina Sousan (Recorder), and Joao Lima.

Below: Chris Rickey and Mitch Watuik.

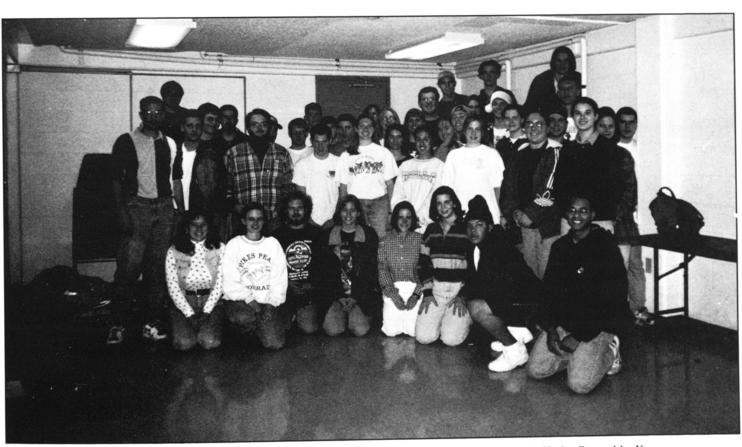

The UMR Racquetball Club is a relatively new organiztion. Formed in the fall semester 1996, the club currently consists of approximately fifteen members. The membership includes students and faculty, and the playing levels range from beginner to highly skiller. The Racquetball Club is simply a good time for all. The group gets togerher atleast once a week to play and socialize. The long term goal of this organization is to form a traveling team to compete against other colleges, whether this be a nonvarsity or varsity sport.

## QUADRANGLE

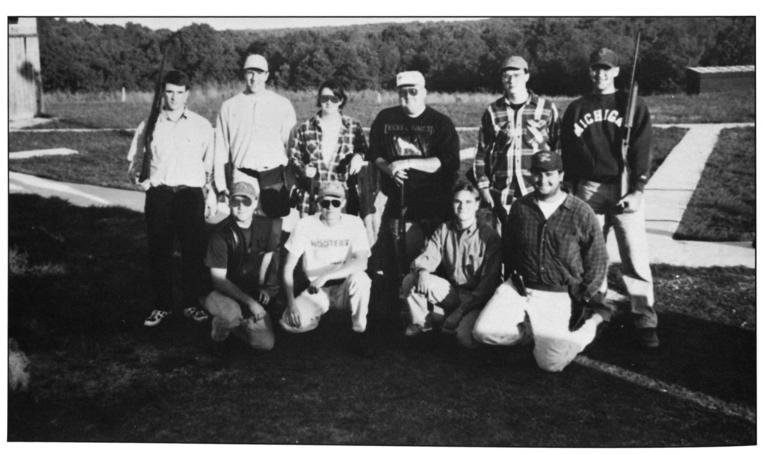

## MALL-

## ASSOCIATION

Above: First Row: Jessica Marshall, Jennifer Wengler, Sam Byrd, Heather Bengardt, Kathy Reynolds, Keane Moellenhoff, Joe Riggins, and Tony Chantosa. Last Row: Rosie Johnsen, Ben Orr, Kenneth Dunek, Eric Yount, Hal Burch, Tom Butryn, and Phil Steinmetz.

United Ministries at the Wesley House is an ecumenical religious organization that offers something for all. Numerous activities are scheduled throughtout the year. These include a haunted house, float trips, woodcuts for L.O.V.E., movie nights, ice skating, work projects, a car wash, and many other fun activities. With its TV room, kitchen, pool and ping pong tables, the Wesley House provides a second home for many people. Wesley also provides a place to worship and grow closer to your friends. We offer a weekly worship service as well as weekly Bible stidies, discussion groups and semesterly worship retreats. We also travel to different churches and either participate in or conduct the service. We even have our own singing group that sings at various churches. Wesley is located at 403 W. Eighth street. Come visit us and see what we are about.

# ORGANIZATIONS — HELP — OUT

ne of the best things about the organizations here at UMR, is that most of them do some sort of service organization for the community. They donate time and money to several charities around the Rolla area. It is very important for students to give back to the community because they have the time and energy to make a big contribution. It also gives the community an opportunity to have a good opinion about UMR students.

"Most all of them do services for Rolla," said junior Stacy Garfield. Society of Women Engineers (SWE) contributes time to the Russel House, such as baby-sitting. SWE also has programs set up for girl scouts and junior high girls. Panhellenic Council visits area nursing homes to sit and visit with the residents.

"Lambda Sigma Pi does tons of service projects. Sometimes we even get turned down for contributions because charities around Rolla say that they have too much money and to call another charity," said Garfield, member of Lambda Sigma Pi.

Interfraternity Council (IFC) participates in the highway cleanup program, along with the American Society of Civil Engineers. IFC also has organized a skate-a-thon to raise money for different causes. Theta Tau Omega sponsors the "Ugly Man" Competition to raise money for the winning organization's favorite charity.

"Society of Mining Engineers (SME) gives money to LOVE Foundation every year around Christmas time," said Jesse Blair, member of SME, "it looks good for organizations to make donations."

Almost every organization has a philanthropy or a charity in which they sponsor, some of which are national and others are local, either way, they help others. This factor is an accomplishment for all of the organizations. However, the community in a sense repays the organizations by the Rolla businesses. These businesses sponsor several events for campus organizations and Greek houses, for example, UMR Solar Car Team.

Not only do organizations help out the community, but they also benefit the students here. They do this by sponsoring and organizing informational programs. The UMR Techs give several presentations throughout the year making students aware of health issues.

"Panhellenic Council put on programs to benefit the people," said Garfield, also a member of Panhellenic Council. Panhellenic Council has organized programs about self-defense and sexual awareness.

All of these organizations deserve recognition for the effort they have put into helping others. Hopefully, this will continue on for many more years to come.

## EG 10 Restructuring

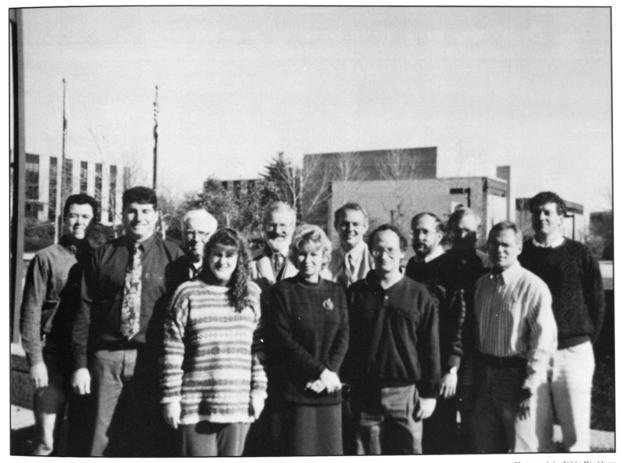

For years EG-10 has been an unchanging element in the schedule of any freshman, with aspiration of an engineering degree. EG-10 has always been a course to teach freshmen the basics of Auto-Cad, Quattro Pro, and other common software packages that will be used numerous times in a variety of classes to come. That is until the fall semester of 1995, when the format of EG-10 was changed.

It was changed from a class completely based on software applications to a mix of software applications and a semester-long design project.

The new format was installed to give students some practical design experience in a lower level class, which it has. However, some teachers feel that the addition of the design project has left students with a lesser knowledge of Auto-Cad.

The changes didn't stop during the 1995-96 school year. This year, in addition to the semester-long design project, students were required to sign up for classes dealing with different software applications. Basically, if you were in the class you set your own schedule for software classes, regardless of when your official class time was. When to go to class was totally up to each individual and could be changed throughout the year.

Now that four semesters have gone by and teachers are beginning to see the results, it will be interesting to see if EG-10 will stay as it is now, or if it will be completely restructured again. Only time will tell

## CHEMICAL ENGINEERING

## The Co-op Experience

As a senior in Mechanical Engineering at the University of Missouri-Rolla, I decided that I needed an edge over other mechanical engineers. I wanted very much to gain some experience in the work place so that I could begin to understand what would be expected of me when I became a full time professional engineer. The best way that I could do both of these things at once

was to get a co-op job.

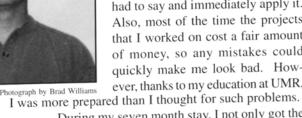

I was selected for a co-op position with Chapparal Steel in Midlothian, Texas. They produce steel I-beams, channel, rebar, rounds, and many other specialty steel products such as castilated beams. As it turned out, I worked for the part of the plant that shreds automobiles and other scrap for the melt shop, which in turn melts the steel so that the different products could be rolled in the various mills.

Until my co-op job began, I was completely unaware of the many different directions that I could go with a degree in mechanical engineering. The position that I took was basically one of a plant engineer. For the first several weeks I was shown around the plant and introduced to everyone from the management staff, people in accounting, and to each department manager. On the plant tour we saw such things as the melt shop melting 50 tons of steel with millions of volts of electricity, to the shredder shredding a car every 13 seconds.

The Shredder operation was an integral part of

the plant because at this steel plant all the steel was recycled and a large majority of it had to be processed before it could be melted. The shredder did almost all of this processing, and as it turned out I was one of the engineers that would be responsible for any modifications or maintenance to the entire process. At first this was very intimidating. Suddenly someone was asking

my opinion on how a process should be modified or enhanced, then asking me to do some drawings, then going out and building the item. The first time this happened it was scary, because I wasn't prepared for how seriously people would take what I had to say and immediately apply it. Also, most of the time the projects that I worked on cost a fair amount of money, so any mistakes could quickly make me look bad. However, thanks to my education at UMR,

During my seven month stay, I not only got the experience I was looking for, but I also learned many other less academic things. I learned how to get a project from an idea to a contractor, how to better communicate my ideas and recommendations to my employer, and I learned how industry views an engineer and what it expected of engineers. But most importantly, I learned that I enjoyed being a design engineer much more than a plant engineer, and I learned that I would, in the end, make a very good engineer.

### The On-line Revolution

Just a few short years ago e-mail, home pages, and the Internet were things that were known to only a small group of people. Recently, there has been a nationwide on-line explosion that has affected an enormous amound of people. Companies such as America Online, Netscape, and Prodigy have gone from small operations to multi-million dollar corporations. It seems as if no one is immune to its effects.

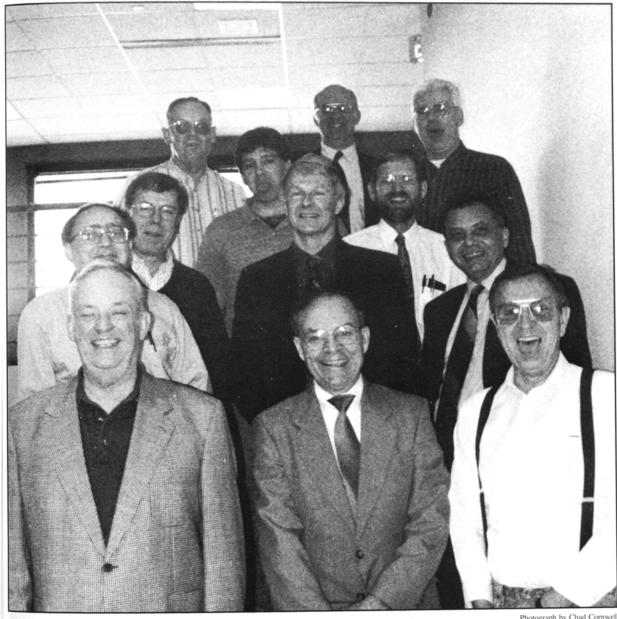

On-line communication has become a larger and larger part of the average student's life. Today, the "on-line revolution" is sweeping through campuses all over the country, and UMR is no different.

Over the past few years, teachers have began to utilize on-line communication much more than in the past. They are using on-line services to send all kinds of information to their students. Assignments are given,

grades are posted, and nots can be taken directly from the teacher's home page.

Take an average student as an example; most likely they are familiar with e-mail and the Internet. They are forced to be, by the numerous assignments announcements, and messages that teachers send or post for them. This is often valuable information that isn't given in class. In some classes, it is necessary for students to check for notes or grades on a daily basis.

Beginning this year, registration can be done over the world wide web via the UMR home page. The on-line revolution is simply sweeping the country and is expanding into applications that were had even been conceived a few years ago. Who knows, maybe the college students of the 21st century will just connect with their campus to attend class.

### Faculty in Residence

Residential Education is an approach to integrating curricular and co-curricular experiences at the University of Missouri-Rolla.

This idea dates back to the idea of "residential colleges." It is based on the tutorial system that many colleges used to have.

Although professors don't live in the residence halls with the students, the goal of Residential Education is to promote the interaction of faculty with students outside of the classroom.

It has been shown that students who have an informal relationship with a professor have a higher retention level. This is due to the fact that the students have a friend who also happens to be a faculty member. Residential Education gives students a direct connection to the university.

Faculty are encouraged to enter the residence halls and give seminars on a variety of topics. The hope is that each program will provide, for each student in attendance, a meaningful experience that links in-class experiences to out-of-class experiences. They complement each other.

For example, Dr. Paul Santi of the Geological Engineering Department presented and discussed the geology of the movie "Tremors." Dr. Santi discussed specific landforms shown throughout the movie, in addition to the overall geologic setting.

Dr. Nick Knight of the English Department presented two programs during the fall 1996 semester: one being an introduction to Shakespear's "As You Like It," and the other was titled, "English 22-Battle Literature."

# IN THE HOME STRETCH

Finally, after all the years it is over! The studying, the late night cramming for tests, the exciting Rolla lifestyle, and of course the dreaded finals. Why do we put ourselfs through all this punishment? I suppose there are a few people out there that avtually like all this stress, but for the majority of us it is to take that giant step into the "Real World." To find a job where instead of getting up and going to class every day you go to work.

University of Missouri-Rolla is well know for getting its students jobs in their field of study. This is, to the most part, due to an excellent facility called the Career Opportunity Center (COC). This facility, found on the third floor of Norwood Hall, provides students with the necessary resourses to find the right job. Students can do anything from getting help with their resumes to practicing their interviewing skills during a practice interview. The Center also has a library of material on hundreds of companies around the world so that students can research and find possible employers. The Center is also in charge of another important tool that has helped us all when looking for summer, Co-op, and Full time jobs.

This device is a system that consists oa database of resumes so that all inquiring companies have access to students resumes. It is easy fot a student to be added to the lit. All one has to do is go by the COC and pick up a computer disk. Take it home and fill in the template with your resume information. Then bring it back and the COC loads your resume into the database. When a company shows interest in your resume you are notified via computer. Then all you do is call the COC and set up a time for an interview. They also provide the place for the interviews. Down the hall they have an area with individual rooms that certain companies have sponsered in order to have a place for interviews.

The Career Opportunity Center is responsible for the majority of the jobs that are given to UMR students. So remember that all these years of hard work and dedication have paid off and now it is time to take that giant leap into the "real world." I am sure that UMR has prepared us for this step.

# SENIOR ACHIEVEMENTS

#### Diana K. Alt

Pacific, MO

#### Osama Arabi-Katbi

Amman, Jordan Industrial Assessment Center, American Institute of Chemical Engineers, Tau Beta Pi, Kappa Mu Epsilon.

#### Peter F. Bachle

Rock Port, MO Squirrel Society, C. L. Dake Society.

#### Jackson D. Baker

Hampton, VA Chi Epsilon, Tau Beta Pi, American Society of Civil Engineers, Associated General Contracters Of America, Spelunkers Club.

#### Daniel S. Belcher

Holcomb, MO Power Society, Squirrel Society, Student Union Board, Institute of Electrical and Electronic Engineers, EMC

Society.

#### Thomas W. Bell

Louisiana, MO Sigma Nu Fraternity, Society of Mining Engineers.

#### Matthwe A. Benz

New Haven, MO Student Council (VP-Internal, Recorder), UMR Band, Kappa Kappa Psi(President, Treasurer), Christian Campus Fellowship, Student Activity Fee Board, Blue Key, American Institute of Chemical Engineers.

#### Carl A. Berwick

Rolla, MO Society of Mining Engineering.

#### Brian C. Beyer

Webster Groves, MO Pi Kappa Alpha, Blue Key, Alpha Sigma Mu, Iron and Steel Society, Metallurgical Society, American Foundrymen's Society.

#### **Edward D. Birdsell**

Kansas City, MO International Microelectronics and Packaging Society, American Ceramic Society, Keramos, National Institute of Ceramic Engineers, Institute of Electrical and Electronic Engineers, Solar Cer Team, Tau Beta Pi, Phi Eta Sigma.

#### Stephanie Birkenmeirer

Barnhart, MO

Society of Women Engineers, American Ceramic Society, Keramos, Thomas Jefferson Hall Association.

#### Brody R. Bjornstad

Sierra Vista, AZ Lightning, KMNR, Varsity Baseball, Chancellor's Leadership Class.

#### John D. Boeckmann

St. Louis, MO

Chi Epsilon, American Society of Civil Engineers, Tau Beta Pi, Student Union Board, Student Council, Student Knight.

#### Brian D. Booth

Jennings, MO

Delta Tau Delta Fraternity, Association for Computing Machinery, Amature Radio Club, 1997 Student Knight.

#### **Brandy E. Broeckling**

Florissant, MO Varsity Softball (Co-captain), M-Club, American Society of Civil Engineers, Society of Women Engineers.

## $\mathbb{C}$

#### Mickeal D. Carda

Willow Springs, MO Phi Kappa Theta, American Society of Civil Engineers, Intercollegiate Knights

#### J. Eric Cierpiot

Kansas City, MO UMR Human Powered Vehicle Team, American Society of Mechanical Engineering.

#### Angela E. Coley

Sigma Gamma Epsilon, Association of Engineering Geologists.

#### Scott C. Comer

Sikeston, MO Alpha Epsilon Pi, Alpha Phi Omega, American Society of Mechanical Engineers.

#### **Johan Coppens**

Elewijt, Belgium Society of Mining Engineers, Tau Beta Pi, Phi Eta Sigma, Thomas Jefferson Hall Association.

#### James T Cordia

Richwoods, MO Tau Beta Pi, Pi Tau Sigma.

#### **Stacey Cranmer**

Jackson, MO

Zeta Tau Alpha Soroity, Panhellenic Council, Institute of Industrial Engineers, Alpha Phi Omega, Student Orientation Advisory Committee, 1996 Student Knight.

#### **Eric Crawford**

California, MO
Baptist Student Union (President), Pi
Tau Sigma, Phi Kappa Phi, Ameri-

can Society of Mechanical Engineers.

#### Jamie D. Crutchley

Wood River,IL

Phi Kappa Theta Fraternity, Interfraternity Council, Tau Beta Pi, Sigma Gamma Tau, Kappa Mu Epsilon, Phi Eta Sigma, Student Knight.

#### Brian C. Cunneeen

Kansas City, MO Kappa Alpha Order, Intercolligiate Knights, Gamma Alpha Delta, American Society of Civil Engineers.

#### **Aaron Cypret**

Russellville, AR

Metallurgical Society, American Foundryman's Society, Iron and Steel Society, TMS, FEF.

## D

#### **Craig Dahlgren**

Ballwin,MO

American Society of Civil Engineers, ACI, Associated General Contractors of America, Quadrangle Hall Association (Food Committee Chairman), Student Knight, Order of the Engineer.

#### Lu N. Ding

St. Louis, MO

Tau Beta Pi, Eta Kappa Nu, Institute of Electrical and Electronic Engineers, Tae Kwon Do Club.

#### **Jeffrey Scott Dingrando**

Marion, IL

Marching Band, Symphony Band, Pep Band, Kappa Kappa Psi, Asociation Of Engineering Geologists.

#### Micael K. Dodge

Richmond, IL Lambda Chi Alpha, Institute of Electrical and Electronic Engineers.

#### **Emily Donaldson**

Fort Smith, AR Band, Tau Beta Sigma, Pi Tau Sigma.

#### Jonathan W. Dumbar

Festus, MO Institute of Industrial Engineers, American Society of Engineering Management, ESPO, Tau Beta Pi, Micro Delta Epsilon, Alpha Iota

Delta.

#### Jeromy W. Elder

Molken, MO Order of the Engineer.

#### Samuel D. Erter

Fair Grove, MO Delta Tau Delta, Alpha Phi Omega, HKN, Kappa Mu Epsilon, Institute of Electrical and Electronic Engineers, 1997 Student Knight.

#### Kenneth T. Erwin

Bailey, CO

American Nuclear Society, Tau Beta Pi, Alpha Nu Sigma, Phi Eta Sigma.

#### Robert A. Etien, III

Ft. Wayne, IN Cross Country, Track, Tau Beta Pi, Alpha Sigma Mu, M-Club.

#### David W. Ferkel

St. Louis, MO

Beta Sigma Psi, Theta Tau Omega, Interfraternity Council, Alpha Phi Omega, Student Knight.

#### **Stacy Fesperman**

Ozark, MO Chi Epsilon, Phi Kappa Phi, Order of the Engineer.

#### Jeff Gahm

Kansas City, MO

UMR Human Powered Vehicle Team, American Society of Mechanical Engineers, Kappa Mu Epsilon, Silver Bullets, Newman Center.

#### Julie C. Gannon

St. Louis, MO

Chi Omega, Tau Beta Pi, Blue Key, Panhellenic Council, American Institute of Chemical Engineers, Phi Eta Sigma, Omega Chi Epsilon.

#### **Brian Gilmore**

Potosi, MO

M-Club, FCA, American Ceramic Society, Keramos, Varsity Football.

#### **Emily Kay Gordon**

Jewell, IA

Zeta Tau Alpha, Association of Professional Societies, American Society for Engineering Management.

#### **Kimberly Green**

East Peoria, IL

Kappa Delta Sorority, Chi Epsilon, Tau Beta Pi, American Society of Civil Engineers, Phi Eta Sigma.

#### William Green

Belleville, IL

Alpha Epsilon Pi, Interfraternity Council, Society of Petroleum Engineers, Intercollegiate Knights.

#### J.R. Grohs

Poquoson, VA

American Institute of Aerospace and Astronauts, Ultimate Club, Madigral Singers, Tau Beta Pi, Kappa Mu Epsilon, Mathmetical Association of America, Sigma Gamma Tau, Residential Hall Association, Phi Kappa Phi.

#### **Josh Grove**

St. Louis, MO

Sudent Council (President, VP-Internal, Student Services Chairman), Kappa Sigma Fraternity, Student Knight.

#### Wade E. Haggstrom

Zionsville, IN

American Society of Mechanical Engineers, M-Club, UMR Food Committee, Varsity Swimming (Co-Captain).

#### Erica V. Hall

St. Peters, MO

UMR Cheerleader (Captain, Treasurer), Student Council, Omega Chi Epsilon, American Institute of Chemical Engineers, Society of Women Engineers.

#### Jeff Hansen

Holts Summit, MO UMR Theater, UMR Juggling Club (President), Chi Epsilon, Phi Kappa Phi, United Ministries in Higher Education.

#### **Todd Hartman**

Nice, France Phi Kappa Phi, Upsilon Pi Epsilon, Omicron Delta Sigma.

#### William M. Heard

St.Louis, MO Society of Manufacturing Engineers, American Society for quality Control.

#### Jason C. Heck

Hermann, MO Phi Kappa Theata, Pi Tau Sigma, Tau Beta Pi.

#### **Susan Hunn**

Columbia, MO UMR Excel, Alpha Sigma Mu, Metallurgical Society, Tau Beta Pi.

#### Andrew M. Jenkins

Granite City, IL Varsity Soccer (Captain), Phi Kappa Theta, Theta Tau Omega, Association of Engineering Geologists, Student Ambassador.

#### David W. Jett

High Ridge, MO American Institute of Chemical Engineers, Transfer Student Club, Omega Chi Epsilon, Order of the Engineer.

#### Amy S. Johnston

St. Louis, MO

Chi Omega (President, Treasurer), Blue Key (President), Student Council, Order of Omega, OSAC, Helix Club.

#### Ingrid M. Kaufman

Henderson, MN Kappa Kappa Psi, UMR Band, Pi Tau Sigma, Tau Beta Pi, KMNR.

#### **Greg Kemner**

Sturgeon, MO

Kapppa Alpha Order, Pi Tau Sigma, American Society of Mechanical Engineers, Student Council, Student Acticity Fee Board, Intercollegiate Knights.

#### Jennifer A. Keifer

Perryville, MO

Kappa Delta Sorority, KMNR, American Society of Civil Engineers, Phi Kappa Phi, Chi Epsilon, Tau Beta Pi, Phi Eta Sigma.

#### Joyelle J. King

Liking, MO

Phi Alpha Theta, History Club, French Club.

#### Melanie E. Kostedt

Lee's Summit, MO Chi Epsilon, American Society of Civil Engineers, Missouri Miner.

#### Tara Krvep

St. Louis, MO

Zeta Tau Alpha, Blue Key, Tau Beta Pi, Newman Conter, Omega Chi Epsilon, American Institute of Chemical Engineers.

#### Melissa A. Lane

Springfield, MO

Wesley Foundation, Residential Hall Association, Thomas Jefferson Hall Association, American Institute of Chemical Engineers, Omega Chi Epsilon, Tau Beta Pi.

#### **Alex Laputz**

Springfield, IL Institute of Industrial Engineers, APS, Tae Kwon Do Club.

#### **Taejin Lee**

Inchon, Korea Korean Student Association, UMR Marching Band, Association of Mechanical Engineers, Phi Kappa Phi, Pi Tau Sigma.

#### Jared M. Lewis

Columbis, MO Phi Kappa Theta, Varsity Soccer, Gamma Alpha Delta.

#### **Chris Linneman**

St. Charles, MO Steel Bridge Team, American Society of Civil Engineers, Student Union Board.

#### **Gregory C. Loomis**

St. Louis, MO

Pi Kappa Alpha Fraternity, American Society of Mechanical Engineers.

#### Noel R. Ludwick

St. Louis, MO

American Institute of Aerospace and Astronauts, Thomas Jefferson Hall Association (VP), Solar Car Team, Student Council.

#### Michael D. Luebke

Arnold, MO

Beta Sigma Psi, Tau Beta Pi, Sigma Gamma Epsilon, Alpha Phi Omega.

#### Kieth A. Luke

Ravenwood, MO Society of Automotive Engineers, Pi Tau Sigma, Phi Kappa Phi.

## M

#### Colin M. Mallon

St. Louis, MO

Chi Epsilon, Trap and Skeet Club, American Society of Civil Engineers, American Concrete Institute.

#### William Malone

St. Joseph, MO

Sigma Pi Fraternity, Society of Petroleum Engineers, Gamma Alpha Delta, Pi Epsilon Tau, Kappa Mu Epsilon.

#### **Brian Marks**

Highland, IL

Phi Kappa Theata Fraternity, Association of Engineering Geologists, Varsity Soccer (Captain).

#### Chriatopher M. Martin

Manchester, MO

Acacia Fraternity, American Institute of Chemical Engineers, Wesley Foundation, Alpha Phi Omega, Phi Kappa Phi, Tau Beta Pi, Omega Chi Epsilon, Kappa Mu Epsilon, Phi Eta Sigma.

#### Sarah Maxon

Overland Park, KS

National Society of Professional Engineers, American Institute of Chemical Engineers, Society of Women Engineers, Varsity Soccer, M-Club, Omega Sigma.

#### Michael P. May

Willard, MO Tau Beta Pi, Pi Tau Sigma.

#### Sean W. Mays

Naperville, IL

American Society of Engineering Management, Association of Professional Societies.

#### Marc McManus

Blytheville, AR

Sigma Phi Epsilon, Intermural Managers Association, American Society of Mechanical Engineers, Varsity Track.

#### **Omar Metwalli**

Alexandria, Egypt

Missouri Miner, Redidential Life Association, International Student Association.

#### Joel S. Mikelionis

McHenry, IL

Intramural Managers Association, Thomas Jefferson Hall Association, American Institute of Chemical Engineers.

#### John Milkanin

St. Peters, MO

Eta Kappa Nu, Institute of Electrical and Electronic Engineers.

#### Glen A. Miller

Bismarck, ND

Lambda Chi Alpha, Phi Kappa Psi, Tau Beta Pi, Missouri Miner.

#### Ramon B. Miraflores III

Ballwin, MO

Sigma Pi, Alpha Chi Sigman, American Institute of Chemical Engineers.

#### **Wade Montgomery**

New Madrid, MO

Sigma Chi Fraternity, American Society of Civil Engineers, Intercollegiate Knights, Student Knight.

#### Ty Morris

Hopedale, IL

Lambda Chi Alpha, Association of Engineering Geologists, Sigma Gamma Epsilon, Order of the Engineer, Varsity Track.

#### **Greg Morrow**

St. Louis, MO

Theata Tau Omega, Tau Kappa Epsilon, Alpha Phi Omega, 1997 Student Knight, Alpha Iota Delta.

#### Ray Myers

Eldon, MO

American Society of Mechanical Engineers, Society of Automotive Engineers, AIAA, Pi Tau Sigma.

## N

#### Michael H. Nguyen

Valley Park, MO

American Society of Mechanical Engineers, Pi Tau Sigma, Tae Kwon Do Club, Vietnamese Student Association.

## 0

#### Sheri L. Oberhelman

Wellington, MO Psi Chi, Psychology Club, Phi Sigma, Volleyball Club.

#### Regina D. Obrien

Tuscola, IL

Air Force ROTC, Arnold Air Society, Kappa DeltaSorority, Intramural Managers Association, Blue Sabres, Tau Beta Pi, Pi Tau Sigma, Blue Key, Phi Eta Sigma.

## P

#### Ashley N. Peifer

Desloge, MO

Student Union Board (President), Lambda Sigma Pi (Secretary), ISS, Tau Beta Pi, Alpha Sigma Mu, Phi Eta Sigma.

#### Annette C. Pender

Oppenheim, Germany Sigma Tau Delta, Living Poets Society.

#### **Gary Pennell**

Roggersville, MO Iron and Steel Society, American Foundryman's Society, ASM/TMS, Metalurgical Society.

#### **George W. Peterson**

Laquey, MO Tau Beta Pi, Phi Kappa Phi.

#### Bryan E. Poettker

Trenton, IL American Society of Civil Engineers, Tau Beta Pi, Chi Epsilon.

#### **Scott Preston**

Liberty, MO

Lambda Chi Alpha, Tau Beta Pi, St. Pat's Committee, Army ROTC, Chi Epsilon, Blue Key, Raiders, Order of Omega, Phi Kappa Phi, Kappa Mu Epsilon, Phi Eta Sigma, 1997 Student Knight.

## Christopher S. Pundmann

St. Charles, MO

Interfraternity Council, Sigma Pi, Alpha Chi Sigma, American Institute of Chemical Engineers, French Club.

#### Jennifer Remley

East Moline, IL

Chi Omega, American Ceramic Society, Student Ambessador, Keramos, Omega Sigma, 1997 Student Knight.

#### **Scott Repke**

New Melle, MO American Society of Civil Engineers.

### Kathleen Reynolds

Lake St. Louis, MO
Tau Beta Pi, French Club, Association of Engineering Geologists,
Quadrangle Hall Association.

#### William P. Richardson Jr.

Hermann, MO

Sigma Phi Epsilon, Pi Tau Sigma, Order of Omega, American Society of Mechanical Engineers, Student Union Board.

#### Michael H. Riley

Sikeston, MO

Lambda Chi Alpha, American Institute of Chemical Engineers, Omega Chi Epsilon, Phi Eta Sigma, St. Pat's Committee.

#### Kathleen M. Ritchey

Waukesha, WI

Society of Women Engineers, M-Club, American Institute of Chemical Engineers, Omega Chi Epsilon, Student Union Board, Student Council, Varsity Softball, Gamma Eta.

#### Dennis J. Robb

Steeleville, IL Society of Automotive Engineers.

#### Kevin D. Robertson

Florissant, MO KMNR, Roller Hockey, Student Council.

#### **Tricia Rudloff**

Norfolk, NE

Kappa Delta Sorority, Lambda Sigma Pi, American Society of Mechanical Engineers.

#### **Michael Sartain**

Blue Springs, MO Lambda Chi Alpha, Alpha Phi Omega.

#### James R. Schck

Bismark, ND

Lambda Chi Alpha, Tau Beta Pi, American Institute of Chemical Engineers, Omega Chi Epsilon, Phi Eta Sigma, Gamma Alpha Delta, Student Knight.

#### Gary J. Schreckenberg

# GRADUATION

# 

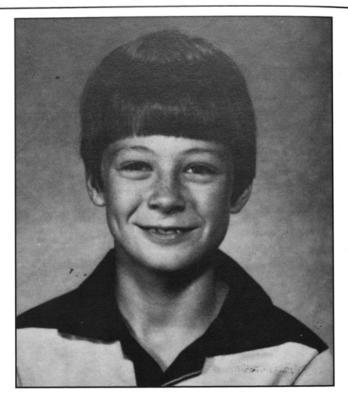

Diana

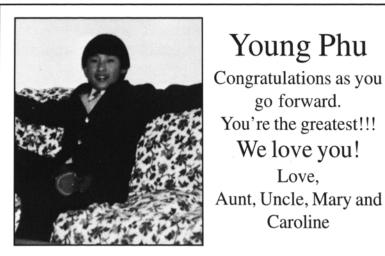

Congratulation to our little princess (oops--queen)! We are very proud of you.

> Love, Mom and Dad. Tim and Phil

### Wade Eric Haggstrom

Another goal achieved! Congratulations! Love, Mom and Dad

#### Young Phu

go forward. You're the greatest!!! We love you! Love, Aunt, Uncle, Mary and Caroline

#### Chris

We always knew we would "SEAL" you get a college degree. Love, Mom, Dad and Cindy

### Regina Dawn O'Brien

Congratulations! You've proved the sky's the limit and made us very proud.

Love, Mom and Kacey

### Michael James Quinn

Congratulations!

We are very proud of you.

Love,

Mom, Dad, Shawn, Paul and Stephanie

#### Mark Allen Sokol

16 years of hassle was worth the tassle! Volumes of love for you, Michelle & Pat, Christine, Joe & Corey, Karen,

Bryan & Mom

#### Marites

#### Congratulations!

We are proud of you. Keep up your good work ethics. be persistent. This is just the beginning of real life. We are confident that your good foundation will help you in any endeavor.

> We love you, Dad, Mom, Alan and Edwin

#### **Brett**

From football at 6 through Rolla at 23 you continue to make us proud. We hope the future will bring you all the happiness you so deserve.

Love.

Mon and Dad

## Amy Lynne Swanson

God has blessed you with talents and abilities, and you have used those gifts wisely. Dream a dream and step into the future with confidence. Always be proud to be YOU as we are to call you "our daughter".

Love,

MOM and DAD

Follow your dreams Alan and you can achieve anything. we are so proud of the person you are. Love. Dad and Mom

> RICHARD A. VANDEGRIFT **EXECUTIVE VICE PRESIDENT**

## Success begins with the right chemistry.

In the 127 years since our founding, MALLINCKRODT CHEMICAL, INC. has earned a reputation for reliability and quality. Today, as a diversified world leader with international operations and more than 2,100 employees worldwide, we've expanded our product base to include pharmaceutical specialties, catalysts, performance and lab chemicals.

To say that our future looks bright is an understatement. Since 1987, Mallinckrodt Chemical, Inc. has invested more than \$160 million in our St. Louis facility. In addition, Mallinckrodt Chemical, Inc. sales are projected to grow 8 to 10 percent annually over the next few years. 1994 sales figures are expected to top \$500 million.

That level of growth has created outstanding opportunities for both new graduates and experienced individuals in CHEMICAL ENGINEERING and CHEMISTRY. Specific positions exist within manufacturing, process engineering, product engineering, research and development and quality control.

Mallinckrodt Chemical, Inc. offers a competitive salary backed by comprehensive benefits. For more information, talk to our campus representative or send a resume to:

> Mr. Jonathan K. Hale Manager, Human Resources MALLINCKRODT CHEMICAL, INC. P.O. Box 5439 St. Louis, MO 63147

We are an equal opportunity employer.

# "The toughest job in the world isn't being President.

It's being a parent."

Every day, I work hard to meet the challenges that come with being President of the United States.

It's a tough job. But there's a tougher job than being the President. It's being a parent.

With drugs, crime and other problems facing our children today, it's tougher than ever to be a good parent.

It's a job that none of us can do alone. That's why 350 wonderful organizations have come together to form the Coalition For America's Children—to help good parents raise good kids.

The Coalition knows hundreds of ways that you can help. Whether you're a young adult who can serve as a role model for troubled teens or a retired person who can supervise an after-school program, the Coalition can get you involved.

To find out what you can do right in your own community, contact the Coalition. They'll help you find a role that fits your schedule and your interests. Whether it's a few afternoons a week or a few hours a month, any time you can give will make a difference.

Thank you.

## COALITION FOR AMERICA'S CHILDREN WE'RE FIGHTING FOR THE CHILDREN

WHOSE SIDE ARE YOU ON?

The 1997 Rollamo

The 1997 Rollamo, Volume 91, was printed by Taylor Publishing Co. Layouts were done on Adobe Pagemaker 6.0 and submitted by disk. Font used included Times new Roman, Algerian, Wide Latin, Desmona, Caslon Openface, Shelly Volante, Colonna, and Footlight MT Light. Senior Picture were taken by Studio One High Tech Photography.

Editor's Note

It's finally finished! The 1997 yearbook is complete. It's been a great year as Editor-in-Chief. Hopefully, the yearbook is as fun to look through as it was to make.

The yearbook would not be complete without the help that the Rollamo staff pu forth. I want to thank those who were willing to give me a hand late at night and on short notices. i also want to give s special thanks to our new advisor Carol Molchan. Thanks for everything.
